## STATIC COMPACTORS

Full range of static compactors with universal tippers, chutes and bespoke hoppers for all materials.

## PORTABLE COMPACTORS

Extensive range of portable compactors, both skip and hook lift models with tipping systems and liquid-retentive options.

## FULLY AUTOMATIC BALERS

Powerful, German balers by UnoTech with fully automatic tying systems using steel wire, plastic wire, plastic strapping. Available in all sizes (40t to 260t pressing force) and with vertical, horizontal and cross tying systems. Both channel and twin ram presses available.

## INDEPENDENT TIPPERS

Free-standing bin tippers in single or 3-phase, with lug or comb lift for 120 - 1100 litre bins.

## TRANSFER STATION COMPACTORS

High volume machines including traversing systems.

## CONVEYORS

Chain or belt conveyors to feed all machines or full recycling systems.

## SEMI AUTOMATIC BALERS

High quality semi automatic horizontal closed end balers offer mill size bales for all materials including paper, cardboard, plastic, FE, non-FE and plastics. This increases your recycling revenue and reduces manpower and operating costs.

## VERTICAL BALERS

Save space, time and money with our range of vertical balers (single or 3 phase).
